Portraits

At James Frank Photography we pride ourselves on giving you great service. A professional photographer for 30 years, James knows the Estes Park area and Rocky Mountain National Park.¹ Alternatively, he will quote for travel to your location on the Front Range or beyond. James' attention to detail and genuine passion for photography allow him to capture you at your best.

Rapport with our clients is a must. While we use a variety of poses, we also take advantage of the unexpected little moments that happen when you feel comfortable and happy - moments that really make you cherish your visit to the Rocky Mountains.

Our **\$150 sessions** include: up to 1.5 hours photography coverage with numerous poses,

location research, travel to and from your local lodging, and a Preview Folio. Add extra session time for only \$50 per half-hour.

We photograph family reunions in a journalistic style with services charged at \$400 per hour with a one-hour minimum. If conditions allow, we will make a posed family portrait. James Frank Photography features an exclusive Online Preview Folio. You are able to see 24+ images online within one week of your session.

Choose a print package from one of our 5 options.²

Your package includes: professional color balancing; cropping and sizing; retouching and enhancement when necessary; optional black & white, sepia or selective color; and a disc of your images sized for **social media use**. Once your package is fulfilled, your photos will remain available for **purchase online for up to 6 months**. That means you get custom coverage and the prints you need without wasting your valuable time on repeat trips to a studio.

No matter which print package you choose, you get the same genuine style, and unmatched service before and after your session. Call or email us any time for a free consultation. We look forward to working with you!

Units are our way of letting you customize your print package so that you get the sizes you need and the extra value you deserve. Below is a table of our packages based on the number of units, along with the unit equivalents. All our print packages allow you to add extra prints. (Don't worry - just let us know how many of what size you need, and we'll do the math.) A bonus is that after your package fulfillment, you and your family and friends can order extra prints individually online for up to six months.
